- Good knowledge and experience in implementing Data structures.
- Good knowledge of web designing.
- Experience in installing and configuring the Django framework.
- Experience in installing and configuring Bootstrap framework.
- Experience in making Frontend designs using HTML, CSS, and JS.
- Excellent in creating responsive web pages.
- Basic knowledge of UX/UI.
- Installing and configuring Postgres database.
- Hosting a website on GitHub and Heroku cloud servers.

TECHNICAL SKILLS

- Frameworks : Django, Bootstrap.
- Databases : Postgres SQL Server, Oracle.
- Languages : Python, Java, HTML, CSS, C++, C.
- Tools : Visual Studio, Atom, Jupyter, Anaconda, Heroku, GitHub, GIT.
- OS : Windows

EDUCATION

Level	Institution	Year-of-study	CGPA
B. Tech	GITAM School of Technology, Hyderabad	2018-2022	8.0(perusing)
Intermediate	Sri Chaitaniya junior college, Hyderabad	2016-2018	9.0
Secondary (10th)	Sri Chaitaniya School, Hyderabad	2015-2016	9.2

PROJECT (personal)

Name : Gitam GLUG Website

Client : GLUG student body

Role : Frontend and backend development

Team Size: 4

Duration: 4 months

Intro of the project

It is a basic website for the members of the GLUG (GUN LINUX USERS GROUP). To track the activities and projects of the club. The website is made by using the Django framework. The website is designed in such a way that the project details and only accessible only to members who are working on that project. Like every other website, the frontend consists of HTML, CSS, JS (Bootstrap framework), and Python as a backend language.

Responsibilities

- The website consists of two different braches technical and cultural events.
- The technical side consists of home, project, members, and login pages.
- Creating UI design of the website for the home, project, members, and login pages.
- Creating frontend pages home, project, members, and login pages using HTML, CSS, JS, and bootstrap framework.
- Installing and configuring the Django framework.
- Connecting Postgres database to the Django.
- Connecting frontend, databases, and backend.
- Creating super-users and importing static frontend pages along with their style sheets.
- Building models for Authentication, projects, members details.
- Styling the admin panel.
- Creating a repository on GitHub and committing pushes to the repo.
- Hosting a website on the Heroku cloud server.

Environment

- Django and bootstrap framework.

Heroku Link: <https://django-cli.herokuapp.com/>

INTERNSHIP

- Data Science intern at Dhyanaitha (ongoing)

CERTIFICATIONS

- Python Specialization by Coursera.
- Python certification by Dhyanaitha.
- Core Java certification by Naresh technologies.
- Agile Software Development by Coursera.
- Software Development Life Cycle by Coursera.

ONLINE PROFILES

- Hackerrank profile : https://www.hackerrank.com/Im_karthik_10
- Leetcode profile : <https://leetcode.com/karthikhulkoo7/>
- GitHub : <https://github.com/karthikrock123>
- LinkedIn : <https://www.linkedin.com/in/karthik-choda-1b5b7a1aa>

HOBBIES

- Fond of books on philosophy, Personality development.
- Badminton, gaming, anime, manga.

PERSONAL INFO

Fathers Name	: Ch. Bhaskar Srinivas
Nationality	: Indian
Gender	: Male
Date of Birth	: 10-Jan-2001
Languages	: English, Telugu, and Hindi

DECLARATION

I hereby declare that the above-mentioned information is true to my knowledge

Date: 05-08-2021

Place: Hyderabad
